PROFESSIONAL EXPERIENCE

04/2021 – 09/2025
Bengaluru, India

Consultant, Project Program Management (Change Management & Transformation Lead | Senior Manager Equivalent)
Dell Technologies
Partnered with senior business and IT leadership to drive transformation governance, ensuring alignment between technology initiatives, customer experience, and business outcomes

- Led enterprise-scale digital & AI transformation programs impacting ~12,000 users, delivering 25–35% efficiency improvements and $6M+ annual value across global support operations
- Led AI-Validated Work Order transformation generating ~$1M in productivity gains annually through automation and fraud prevention
- Improved backlog parts SLA from 20% to 7%, driving ~$5M in annual logistics cost savings while enhancing customer experience – **Game Changer Award**

PROFESSIONAL EXPERIENCE

- Established transformation governance frameworks to monitor adoption and value realization, increasing adoption rates by ~25% across key platforms
- Reduced system-related issues by 30%, boosting user productivity and minimizing downtime for global teams
- Enhanced customer experience and service efficiency at scale by enabling real-time service visibility and self-service capabilities

06/2017 – 04/2021
Bengaluru, India

Senior Advisor, Partner Management (Technology Change Enablement)
Dell Technologies

Managed transformation programs across 36 global partner sites impacting ~7,000 users, enhancing operational performance and user experience – **Game Changer Award**

- Led migration of ~7,000 users from Citrix to VMware Horizon, introducing self-service capabilities that cut ticket volumes by 50% and saved ~$300K annually
- Delivered global work-from-home enablement for ~6,000 users during COVID, sustaining ~80% service levels and avoiding about $1.5M in additional operational costs
- Facilitated and led the Cybersecurity initiative to secure Dell & Customer information by successfully rolling out RSA SecurID MFA process across 29 Partner sites, impacting ~6,000 users for Cybersecurity compliance
- Established structured governance and engagement models across partner ecosystems, improving delivery consistency and reducing escalations

08/2014 – 06/2017
Bengaluru, India

Advisor, Project Program Management (Technology Change Enablement)
Dell Technologies

- Led change delivery for enterprise tools impacting ~10,000 users, enhancing adoption rates and ensuring operational stability
- Resolved critical deployment challenges that prevented major business disruptions across global support teams
- Implemented process improvements that reduced outsourced support costs by ~30% while boosting service efficiency

04/2011 – 07/2014
