## PROFESSIONAL SUMMARY

Senior Change & Transformation Leader with 19 years of expertise leading large-scale digital transformation initiatives across global enterprises in complex, multi-stakeholder environments. Demonstrated success in transformation governance, stakeholder alignment, and driving adoption at scale to ~12,000 users. Proven ability to deliver tangible business results, including \$6M+ in annual cost savings (comprising ~\$5M in logistics savings and ~\$1M in AI-driven productivity gains), 25–35% improvements in efficiency, and a 30% reduction in system issues through AI-driven and customer-centric technology transformations.

Author of 8 original practitioner frameworks — the TRANSFORM Framework™, OPERATE Framework™, ASCEND Framework™, EMBED Framework™, BRIDGE Framework™, FORGED Framework™, TRUST Framework™, and STEWARD Framework™ — covering Digital & AI Transformation, AI Operationalization, GCC Transformation, ERP Change Management, ASEAN and European Digital Transformation, FSI Digital Adoption, and Cybersecurity Workforce Transformation. All published in 2026, grounded in 19 years of enterprise delivery.

Immediate joiner targeting Senior Manager, Director, and Consulting roles in Change Management, Digital Transformation, AI Operationalization, and Transition Leadership.

## PROFESSIONAL EXPERIENCE

---

### Consultant — Project Program Management

Dell Technologies · Senior Manager Equivalent

Apr 2021 – Sep 2025  
Bengaluru, India

- Led enterprise-scale digital and AI transformation programs impacting ~12,000 users across global customer support operations, delivering 25–35% efficiency improvements and \$6M+ in annual business value across EMEA, APAC, and the Americas.
- **Game Changer Award: Operationalized AI-Validated Work Order transformation within Salesforce CRM — generating ~\$1M in annual productivity gains through automation and fraud prevention, using a shadow-mode pilot approach that built user trust before full deployment.**
- **Game Changer Award: Improved backlog parts SLA from 20% to 7% through real-time visibility and self-service enablement — delivering ~\$5M in annual logistics cost savings while measurably improving customer experience.**
- Established transformation governance frameworks connecting adoption metrics to financial outcomes — increasing platform adoption rates by ~25% and building executive-level accountability for value realization.
- Reduced system-related issues by 30%, improving user productivity and minimizing downtime across global support teams through structured UAT governance and release management.
- Led VMware Horizon Version 8 upgrade (Jun 2022) for ~12,000 users — achieved 30% reduction in single-user Horizon vApps issues in the 6 months post-upgrade vs. prior period.

### Senior Advisor — Project Program Management

Dell Technologies

Jun 2017 – Apr 2021  
Bengaluru, India

- **Game Changer Award: Managed transformation programs across 36 global partner sites impacting ~7,000 users — enhancing operational performance, delivery consistency, and user experience across 9 partner organizations.**
- Led migration of ~7,000 users from Citrix XenApp to VMware Horizon — introduced self-service capabilities that cut ticket volumes by 50% and delivered ~\$300K in annual cost savings.
- Delivered global Work-From-Home enablement for ~6,000 partner users during COVID-19 in 72 hours — sustaining ~80% service levels and avoiding ~\$1.5M in additional operational costs.
- Led RSA SecurID MFA cybersecurity rollout across 29 partner sites impacting ~6,000 users — achieved full compliance with zero critical disruptions.

**Advisor — Project Program Management**  
Dell Technologies

Aug 2014 – Jun 2017  
Bengaluru, India

- Single point of contact for tool enhancements, IT updates, and critical issue resolution for business teams spanning ~10,000 users across global support operations.
- **Silver Award: Implemented process improvements that reduced outsourced support costs by ~30% while boosting service efficiency — reduced LATAM SPAM email contribution from 36% to 1%.**
- **Gold Award: Resolved 3 critical tool deployment challenges that prevented major business disruptions across global support teams.**
- Facilitated and led UAT for tool patches and releases; acted as liaison between IT and Business teams across enhancement cycles.

**IT-Enabled Operations Supervisor — eCommerce**  
Dell Technologies

Apr 2011 – Jul 2014  
Chennai, India

- Led operational onboarding of 10 projects across 6 practices generating \$2.1M in revenue.
- Managed 49 FTEs directly for 3 years and 66 FTEs indirectly for 1.5 years as single point of contact for a 115-FTE program.
- **Tell Dell Rock Star x3: Recognized for consistent adherence to Dell's People Strategy (2011, 2012, 2013).**

**Analyst → Senior Analyst → Associate Process Manager**  
eClerx Pvt Ltd.

Oct 2006 – Mar 2011  
Mumbai / Pune, India

- Managed 19 FTEs directly and 5 FTEs indirectly across eCommerce operations including Brand Input/Content Maintenance, Global Web Store Audits, and XML Feed creation for Online Marketing, SEO, and SEM.
- Led a team of 10 FTEs supporting product configuration maintenance for one of the world's largest PC manufacturers.
- Participated in Six Sigma Yellow Belt program to improve quality and productivity levels.
